The End of the extras for the 1980's

There are a number of pictures of a party attended by Turbs over New Year's 1989 - 1990 with a "school" theme. It would appear that this is a social extra. These have not been included but are available from the Archive if anyone is interested, or may be "censored" completely if the 2 current members of Turbs in the pictures (2011) wish that they be!
